George and Lisa Ritter
Island View Marina
1814 Crab Alley Drive
Chester, MD 21611

Dear George and Lisa,

I am pleased to formally notify you that Island View Marina is the 132nd certified Maryland Clean Marina. Congratulations! Together with 24 smaller Clean Marina Partners, we now have 156 certified facilities in Maryland.

A copy of your Award Checklist is enclosed, along with a Clean Marina flag and window decal. We renew your certification in writing for two years, and conduct a *re-inspection* every three years. I have sent our logos by email which you may use to promote your facility as a Maryland Clean Marina right away. Please sign and return the enclosed *Guidelines* for their use.

I anticipate being able to deliver your signed Award Certificate and an outdoor sign within the week or so. We will add your facility to the list of certified Clean Marinas on our web site. I have emailed you a form to provide more information for this page (www.dnr.maryland.gov/boating). We will also acknowledge you as a Clean Marina in our exhibits and publications.

We will announce your certification in an upcoming DNR press release. I will send you a draft by email. Congratulations again. Island View Marina is a great example of how businesses can participate in the protection of our natural resources.

Sincerely yours,

Donna Morrow, Coordinator
Maryland Clean Marina Initiative
